Summary: Dedicated Frontend Developer with a proven ability to effectively teach and guide students in mastering web development fundamentals. Passionate about sharing knowledge and fostering a love for coding. Experienced in developing engaging curriculum and providing personalized support to students of all levels. Seeking a challenging role as a Frontend Development Tutor to contribute to the growth and success of aspiring developers.

Key Skills:

- **Teaching and Mentoring:** Proven ability to create engaging and effective learning experiences, tailoring instruction to individual student needs.
 - **Curriculum Development:** Expertise in designing and delivering comprehensive frontend development curriculum, covering HTML, CSS, JavaScript, and React.
 - **Problem-Solving:** Strong problem-solving skills to identify and address student challenges, providing clear and concise explanations.
 - **Communication:** Excellent communication skills to effectively explain complex concepts and provide constructive feedback.
 - **Technical Proficiency:** Solid understanding of frontend development technologies and tools, including HTML, CSS, JavaScript, React, and Git.
-

Experience:

Frontend Development Tutor | Techtutors | January 2023 - July 2023

- **Developed and delivered** engaging curriculum focused on frontend development, covering topics from basic HTML to advanced React concepts.

- **Provided personalized mentoring** and feedback on student projects, ensuring they understood key principles and best practices.
- **Organized coding workshops** and collaborative projects to reinforce learning and build practical skills.
- **Evaluated student progress** and provided targeted support to help them overcome challenges and achieve learning goals.

Frontend Developer | JediMinds | October 2021 - August 2022

- **Collaborated with design teams** to translate mockups into functional web pages using HTML, CSS, JavaScript and JavaScript frameworks.
 - **Developed responsive and accessible websites** that optimized user experiences across different devices.
 - **Utilized modern frontend frameworks** such as React.js to create dynamic and interactive components.
-
